

Ahmad Furqan

IT Infrastructure & Network Security

📍 Bogor, Indonesia
✉ afurqan05@gmail.com
☎ 0859-2245-0688

Professional Summary

IT Infrastructure & Network Security Engineer with 5+ years of experience designing, implementing, and managing enterprise IT infrastructure, virtualization platforms, Linux/Windows servers, and network security solutions. Skilled in VMware ESXi, Hyper-V, Nutanix, Forcepoint Firewall, Mikrotik, and enterprise monitoring platforms such as Grafana, Zabbix, and Wazuh. Proven track record in delivering infrastructure projects for government and enterprise organizations, improving system availability, security, and operational efficiency.

Technical Skills

Infrastructure & Virtualization

- VMware ESXi & vCenter
- Microsoft Hyper-V
- Nutanix
- Server Deployment (Dell, HPE, AsRock)
- RAID Configuration
- Hardware Installation (Racking, Mounting, Cabling)
- Remote Server Management (iDRAC, iLO)

Network & Security

- Network Infrastructure Management
- Switch Configuration (Dell, TP-Link, Ruijie)
- Firewall Configuration & Administration (Forcepoint, pfSense)
- Mikrotik Router Configuration (Routing, NAT, VPN, Failover, Load Balancing, QoS)
- VPN Configuration (Site-to-Site, Remote Access)
- Network Topology Design

Operating Systems

- Linux Administration (Ubuntu, CentOS, Debian, RHEL)
- Windows Server Administration

Monitoring & Logging

- Grafana
- Prometheus
- Zabbix
- Wazuh

Containerization

- Docker
- Docker Compose

Work Experience

IT Infrastructure Engineer PT Mandala Teknologi Persada

August 2025 – present

- Designed and implemented IT infrastructure and network topology to support business operations.
- Deployed and configured physical servers, including racking, cabling, RAID configuration, and remote management setup using iDRAC.

- Managed VMware ESXi and Microsoft Hyper-V virtualization environments.
- Configured and maintained Forcepoint Firewall, including security policies, NAT, routing, and VPN connectivity.
- Managed network infrastructure, including Layer 2/Layer 3 switches and Mikrotik routers.
- Configured and managed TP-Link Deco access points to support wireless network connectivity.
- Implemented infrastructure monitoring using Grafana, Prometheus and Wazuh.
- Supported the deployment of IT infrastructure for Bareskrim POLRI (SOPS Division), including the Early Warning System (EWS) and Daily Operation Reporting System (DORS).

IT Infrastructure & Network Security Engineer

PT Caraka Komunika Indonesia

April 2023 – August 2025

- Installed and configured physical servers, including mounting, cabling, RAID configuration, and iDRAC management.
- Implemented and managed virtualization infrastructure using VMware ESXi, Microsoft Hyper-V, and Nutanix.
- Configured and maintained pfSense and Forcepoint Firewalls, including firewall rules, NAT, routing, and VPN connectivity.
- Configured and managed wireless network infrastructure using Ruijie and Ubiquiti UniFi access points.
- Implemented Safeline WAF to enhance web application security.
- Built centralized monitoring solutions using Grafana and Zabbix to monitor servers, network devices, and services across production environments.
- Created and maintained infrastructure documentation, including network topology diagrams, system configurations, and deployment procedures.
- Supported infrastructure deployment and operational support for national law enforcement systems within Pusiknas POLRI and Kejaksaan Tinggi DKI Jakarta.

Network Engineer

PT Rekan Andalan Sukses

October 2022 – April 2023

- Configured and managed Mikrotik routers, including routing, NAT, VPN, load balancing, and failover.
- Managed VMware ESXi virtualization environment, including virtual machine provisioning, configuration, and basic administration.
- Managed network infrastructure, including switch configuration and troubleshooting.
- Configured and managed Ubiquiti UniFi access points to support wireless network connectivity.

Education

2015 – 2019

Universitas Gunadarma
Bachelor's Degree in Information Technology
GPA 3.36

2012 – 2015

SMK Wikrama Bogor
Computer and Network Engineering (TKJ)

Certifications

- Mikrotik Certified Network Associate (MTCNA) – Mikrotik
- Network Security Associate (NSE) – Fortinate
- CCNA Routing & Switching: Essentials

Languages

- Bahasa Indonesia : Native
- English : Intermediate
